

Univision's ¡Entérate! Habla Con Tu Corazón features Go Red Por Tu Corazon

This Mother's Day a 30-minute Univision special hosted by award-winning journalist, Teresa Rodriguez, will feature the American Heart Association's Go Red Por Tu Corazón movement. Univision's show, *¡Entérate! Habla Con Tu Corazón* hopes to inspire Hispanic women across the nation to take action so they can maintain a healthy heart.

Heart disease is the No. 1 Killer of Hispanic women, yet only one in three Hispanic women is aware of their high risk. Only one in four is aware of proven treatment options.

Univision's *Entérate Habla Con Tu Corazon* special will bring awareness of heart disease by highlighting stories of real women who have been personally affected by heart disease. Viewers will see their journey to a healthier lifestyle for themselves and their families. Interviews with some of the nation's top cardiologists will focus on the importance of knowing your risk, recognizing symptoms and making small changes that could save your and your family's lives.

Entérate: Hablemos del Corazón premieres on Univision Saturday, May 8th, 11 a.m. (ET & Pacific), 10 a.m. (Central). Check your local listings.
